

CASA BAJA

HOME ON ONE LEVEL

The townhouse beckons to us from behind high masonry walls and a whimsical gateway. Ornately paneled entry door, bay windows, bright colors and soft lighting provide richness and variety, bold design and delicate detail. The master bedroom incorporates a high cathedral ceiling and massive wood beams placed high into the side walls. A large skylight in the bath accents the graceful use of Mexican tile. Wood beamed ceilings in living room, entry, dining, kitchen and master bedroom. Two bedrooms, study, two baths. 2206 square feet.
