

This home, the largest at COUNTRY HORIZONS, is designed with a more traditional approach, but still conveys the pleasures of garden living.

Centrally located is the family living center — the unification of bedroom, family, kitchen, and family dining spaces, all overlooking the lush garden and patio. Enjoy the Arizona country with casual abandon from this large area, which is visually separated from the formal entertainment spaces.

For the more formal times, the elegant sitting room and large formal dining area, grace this home with comfortable sophistication.

This lovely master suite is designed for luxurious comfort and privacy. Go ahead, pamper yourself at the end of the day with a grand garden bath overlooking a lushly landscaped private patio and direct access to the pool; a midnight swim, perhaps?

This beautiful home blends spaciousness and comfort to produce the rare quality of unique spatial relationships. The lovely interiors flow with a grace to be shared with many and experienced with only a few.
